## Accessories for spray guns: Hinge for flow cups and compressed air micrometer

### **Hinge for flow cups:**

The Schütze hinge for flow cups makes it possible to pivot and fix the flow cup of spray gun in any position. In this way also difficult spray jobs, f.i. overhead spraying, are possible. Leakage or dropping of fluid is avoid.

### **Compressed air micrometer with gauge:**

The Schütze compressed air micrometer is for exact adjustment of inlet atomizing air pressure of spray gun. It can be installed, also later, to each spray gun.
