# FINE-SPRAY gun W 3 FZ-Duo R/F

The SCHÜTZE FINE-SPRAY gun W3 FZ-Duo is designed specially to handle sprayable fluids of very low viscosities. Fine co-ordination of precision made nozzle, needle and aircap produce an atomizing result which particularly when applying release agents gives an extreme smooth lay on in moulds and dies.

In accordance to latest regulations, only release agents free of CFC will be allowed. These agents provide a smooth finish of fine droplets to the surface, when applied with this gun.

Worldwide this very handy gun is most popular within the field of thermoplastic industries and the founding industries. The short gun body and the Duo-feed hose, which passes fluid as well as atomizing air through the grip, allows always comfortable handling.

Depending on viscosity and lay on desired there are nozzle dimensions available as under:

- available nozzle dimensions:  
ø 0.2 / 0.3 / 0.5 / 0.8 / 1.0 mm
- with round-flatspray regulation
- Duo-feed hose in all lengths

## Technical data:

<b>Weight:</b>	approx. 240 g
<b>Material pressure:</b>	max. 4 bar
<b>Atomising air pressure:</b>	max. 6 bar
<b>Gun body:</b>	aluminium, blue anodized
<b>Nozzle + needle:</b>	stainless steel

Special designs on request.  
Technical alterations reserved.
