

Fluid Sprayer WS 5/1

schütze
SPRAYTECHNOLOGY

The SCHÜTZE Fluid Sprayer WS 5/1 is designed for spraying liquids under pressure without atomizing air as under

- water
- watery solutions
- oils
- disinfectants
- cleaning agents

This fluid sprayer sprays in a hollow cone. A special sprayhead atomizes the fluid without atomizing air. Spraying water f.i. is possible by simply connecting the gun to any water supply line. The WS 5/1 is a robust and simply designed spraygun. Spiral hoses in different lengths available.

standard version:

type WS 5/1: fluid sprayer,
with 100 mm pipe,
including 14,5 mm nipple
diameter of nozzle plate: 0,8 mm
weight: 330 g

available spiral hoses:

- operating length approx. 6 m
- operating length approx. 10 m
